

# The Science of eMobility

## **Christopher Shamie**

Vice President— Hybrid Drives,  
eAxle, and PMO @ Schaeffler

Local Manufacturer Schaeffler is building state-of-the-art systems to hybridize and electrify the vehicles that we drive every day—from sports cars to pickup trucks to commercial vehicles. Schaeffler's VP of eMobility Chris Shamie will walk through some of the physics of vehicle electrification, as well as some of the pitfalls. Carrie McKelvey, Manager of Development Programs, will also show how you can get involved in making vehicles more environmentally friendly.
