

WOOSTER

Physics

Colloquium Series

I Don't Know What You Did Last Summer!

11am Tuesday, August 30th
Taylor 111

Harrison Clayman

Computational Superconductivity Study at MS State

Olivia Green

Modeling Sample Interactions for a Two-Photon State

Eric Johnson

Inter-Event Time Analysis in a Granular System

Raisa Raofa

Learning Nuclear Science at MSU + Building Mini Neutrino Detector at Fermilab

John Schmidt

Calculating the Young's Modulus for Compression of Swollen SOMS

Connor Streeter

Studying Solar Filaments at the NSO

Luke Wilson

Statistical Growth Model Research at The Ohio State University
