

# 2023 SCIENCE DAY!

Come explore science with us! The activities are designed for children, but definitely still interesting for adults.

## Demonstrations include:

- Look through the telescope
- Make glow in the dark slime
- Try logic games and puzzles
- Dissect goat brains
- Extract DNA from strawberries
- Enjoy ice cream made from liquid nitrogen
- Watch the magic of electricity

And many more!

This event takes place in Taylor Hall on the College of Wooster campus. Students will lead demonstrations on April 22nd 1-4 pm. We hope to see you there!
