

# WOOSTER

## Physics

Colloquium Series

# I Don't Know What You Did Last Summer

**11am Tuesday, August 22nd**  
**Taylor 111**

**Lily Baker**

Analyzing Kagome Lattice Structures

**Gustav Bourdon**

Investigating Brazing at Sandia National Laboratories

**Eric Johnson**

Characterization of Thin Films Grown from Atomic Layer Deposition

**Kelsey McEwen**

Characterizing Magnetic Hysteresis Effects

**Madelyn Noll**

Space Weather Investigation Frontier: Orbit Analysis

**Juno Ryan**

The Very Large Internship

**Gus Thomas**

One-Dimensional Belousov-Zhabotinsky Chemical Wave System as an Electron Drift Analog

**Luke Wilson**

Signal Processing and Networking with High-Performance Computers
